WHAT TO *expect*

Admissions

The admissions office is here to assist you Monday - Friday from 9:00 AM - 5:00 PM with remote availability during off hours for any questions that may arise.

Within the first few days of your stay, an admission representative will meet you to go over admissions paperwork and collect copies of your insurance cards.

Physician Services

Each patient, whether you are here for short term, respite, or long term care, will be assigned to a physician group. Your physician, along with their clinicians, will see you throughout your stay here to attend to your everyday medical needs.

Medications

Medications will be provided by our contracted pharmacy. Upon admission, your hospital discharge medications will be ordered and sent directly to the facility. There is no need to provide your own medications as these are all included in your stay, unless otherwise instructed.

Social Services and Discharge Planning

Our social services department is dedicated to providing you with the resources you need to return home or locate appropriate placement whether that be home with family, assisted/independent living, or even long term care within our facility. For patients returning to home, the social workers will assist in setting up all necessary equipment, home care, and outpatient/home therapies. We are here to ensure a seamless and comfortable transition to home while keeping you and your family in the loop for all information along the way.

Therapy

The goal of our rehabilitation department is here to get you back to your prior level of functioning or even better! We offer Physical, Occupational, and Speech therapy in house with each patient receiving an individualized approach to their exercise needs. Therapy is open 7 days a week; including holidays. Treatment plans are ongoing and each patient will be scheduled appropriately depending on tolerance, insurance allowance, and needs.

Long Term Care

We are contracted with most long term care policies for those who need 24 hour care and we accept private pay as well. Our business office will be happy to explain the process and guide you through the next steps when applying for Medicaid.

It's very rare nowadays to see health workers stay in a facility and work for months, in this place, there is longevity people work and stay happy working for years and years! For me, happy workers serve happy customers. Like I said- rare and valuable qualities can be found in West Deptford.

I wish to say that my experience here has been nothing but good. My nurses here with Medbridge, Adianna, Kashmere, Jen, Queen Asia, Carmen, Zenasia, Lionel, Bridget, Brandon are the best. Always there respond to call Bell never a hassle. My room is always clean and timely manner Mary and Amy. Angel is great. I really want to thank Stan for ensuring my meals were correct with a shout out to Teresa, Anthony and Emily. An extra special thank you to sandy Joanne and therapy staff. I have greatly enjoyed the activities the new friends I made and the fellowship. Carla from the concierge department has been a tremendous help getting pointing to people I need to reach. The social work department has been on point how can we with outside contacts and my family care conference meeting. My PA assistant Alexis and Wanda Medbridge unit manager has kept me update on health issues.
